

MANDATORY Volunteer Health Requirements

The Autism Project is a proud affiliate of Lifespan. All Lifespan Volunteers and Employees, including Staff on a 1099, are required to comply with immunization and screening requirements as a condition of employment.

1. **Once you have confirmed that you will be volunteering at The Autism Project you will need to:**
 - A. Obtain a copy of your immunization record from your physician.
or
 - B. Contact your former employer, school, college, health clinic, or military service for your records.
 - C. If you do not have access to your records, then you will be tested for them and provided with the appropriate vaccinations, and screenings, all at no charge.

Required Immunizations:

MMR: 2 Measles, 2 Mumps and Rubella containing vaccines or positive titers.

Varicella (Chicken Pox): Provider diagnosis of past disease or 2 Varicella vaccines, positive titers.

Tdap: 1 vaccine

Hepatitis B: 3 vaccine series optional except for employees exposed to blood/bloody fluids.

Tuberculosis: PPD test with actual millimeter reading, or Bloody assay for TB (BAMT).

Those with positive PPD's need results in millimeters and a chest x-ray after positive result.

PPD: Proof of a PPD vaccination within the past 6 months.

If you have not had a recent vaccination you will need to complete one.

This can be done at your primary care physician, Lifespan Employee Health or a local pharmacy.

If you have any questions or concerns please contact Jennie Moran at JMoran@lifespan.org or call her at 401-785-2666 X 76787.
